

## Mounting rail, for Slido D-Line41 50X and 80X, pre-drilled

aluminium, silver coloured anodized, length 3,000 mm

Art. no. 940.42.722

### Article details

Suitable for Wall distance 14-20 mm

Product Material Aluminium

Version pre-drilled

### Additional information attributes

When mounting a version with soft and self closing mechanism between walls, the panel must be separated in order to slide in the soft and self closing mechanism. The panel is fixed to the mounting rail with assembly adhesive applied at individual points. It cannot be avoided to hear a slight noise when the doors are running over the joint.
